

SITS, VADODARA PRESENTS
4- Days Training Course during
07-10 June 2016 on
“Laboratory Quality Management System
and Internal Audit as per ISO/IEC 17025”

For personnel involved in the Establishment and Management of Laboratory Quality Systems, and Internal Audit Program for their Laboratories”

Needs and Benefits: With the globalization, there is a need for maintaining ISO 17025 in the laboratory: as a result, each and every organization need to have personnel who can handle this responsibility in a systematic and a better way to have the smooth running of system and save the time and energy. Considering these facts this programme has been designed

As per announcement by NABL – to attend such program is a mandatory requirement for the Quality Manger – We recommend it for QM and TM both -

- On completion, participants will be able to:
 - a) Establish an internal audit program as required in NABL Criteria.
 - b) Schedule, plan, conduct, report on lab internal audits (including the documentation required)
 - c) Identify effective auditing techniques
 - d) Develop and implement a quality system, compatible with ISO/IEC 17025.

Program Objectives:

- The purpose of this course is to provide participants better understanding of requirements of ISO 17025 and skill aspects of Internal auditing
- Developing and understanding on quality system documentation for the laboratory.
